Your Performance

Test Result

FAIL

Test Score

207

Your Performance Compared to Other Examinees

The chart below represents the distribution of scores for a group of examinees from LCME-accredited US/Canadian medical schools taking Step 2 CK for the first time between July 1, 2023 and June 30, 2024. This information is provided solely to show your performance alongside a large group of recent test takers. Please note that your score is determined only by your performance on the examination. Reported scores range from 1-300 with a mean of 249 and a standard deviation of 15.

If you tested repeatedly under the same conditions on a different set of items covering the same content, without learning or forgetting, your score would fall within one standard error of the estimate (SEE) of your current score two-thirds of the time. The SEE on this exam is 7 points.

Your score +/- SEE: 200 – 214

Your Relative Strengths and Weaknesses

The boxes below indicate areas of relatively lower or higher performance in each content area within the Step 2 CK examination. A box in the "Higher" column indicates you performed notably/meaningfully higher in that content area than your overall Step 2 CK performance shown on page 1. A box in the "Same" column indicates you performed similarly in that content area to your overall Step 2 CK performance. A box in the "Lower" column indicates you performed notably/meaningfully lower in that content area than your overall Step 2 CK performance. The percentage range of items from each content area on the Step 2 CK examination is indicated below.

This information can be used to identify areas of strength and weakness to guide future study. Because the exam is highly integrative, USMLE recommends reviewing all content areas if retaking the test.

Performance by Physician Task Relative to Your Overall Step 2 CK Performance

	(% Items Per Test)	Lower	Same	Higher
PC: Diagnosis	(34 - 46%)			
PC: Pharmacotherapy, Interventions & Management	(26 - 38%)			
PC: Health Maint, Prevention & Surveillance	(8 - 12%)			
Ethics/Professionalism	(5 - 7%)			
Systems-Based Practice/Patient Safety	(5 - 7%)			

Abbreviation: PC, Patient Care.
